Dear Sir/Madam:

RE: Margaret Joan Brown Kay

It is with great pleasure that I write you on behalf of Margaret Joan Brown Kay who is applying to become a doctoral level student in Clinical Psychology at Immaculata College with a speciality in neuro-psychology. Margaret graduated in 1977 from this university with the degree of Masters of Applied Science (M.A.Sc.) in Psychology.

While she was a student here, Margaret was just an outstanding student who graduated with a straight A average. Following graduation, Margaret became a licensed psychologist, a certified school psychologist in the state of Pennsylvania, and a Nationally Certified School Psychologist. Currently she runs her own private practice in Lititz, Pennsylvania. Over the last fifteen years, Margaret has taken time out of her very busy schedule to continue to take courses to upgrade her training and to learn new skills. Her request now to enter doctoral level study is, thus, a natural outgrowth of her keen interest in her field, her desire to learn more, and her unquenchable thirst for knowledge.

Margaret is an unusually gifted, mature, articulate, intellectually curious individual. There is no question that she has the capacity as well as the energy and dedication required to complete with distinction doctoral level study. I recommend her to you without reservation.

Yours sincerely,

A handwritten signature in cursive script, appearing to read "G.E. MacKinnon".

G.E. MacKinnon, Ph.D., C. Psych.
Associate Professor
Certified Psychologist, and
Chairman, Applied Psychology Program
