To Whom it May Concern:

I am writing on behalf of Margaret J. Kay who is currently enrolled as a doctoral student at the Indiana University of Pennsylvania and is in the process of upgrading her professional qualifications.

I have on several occasions referred clients to Peg for evaluation, particularly in situations involving possible learning disabilities. I have always been impressed by her professional competence and conduct. Her evaluations are thorough, clear and specific. She also makes every effort to provide feedback to me as the referring source. My experience of her work is that she operates in a highly professional and ethical manner. The responses I have received from clients whom I have referred to her have been consistently appreciative. I would have no hesitation in referring others to her. I value her work very much.

Sincerely,

James W. Hanna  
Executive Director
